

The G60 and G120 provide a high level of efficiency and flexibility for complete control of the entire roasting process.

FEATURES & BENEFITS

- Solid roasting drum and special paddle mixer to ensure optimal blending and an excellent roast
- Insulated burners for energy efficiency
- User-friendly control panel for precise, consistent results
- Sight glass, sampler and bean thermometer for continuous monitoring
- Separate drive fan and stirring mechanism to efficiently cool and discharge the coffee
- Free-standing cyclone for effective chaff separation
- Classic design and high-quality components for durability
- Space-saving footprint

TECHNICAL SPECIFICATIONS

	G60	G120
Capacity		
Capacity per batch	132 lbs (60 kg)	264 lbs (120 kg)
Batches per hour	4	4
Capacity per hour	528 lbs (238 kg)	1,056 lbs (479 kg)
Heat		
Natural gas or propane	400,000 BTU/hr	850,000 BTU/hr
Inlet fitting	1¼"	2"
Electric Power		
Voltage	208-240/480/600 V	208-240/480/600 V
Frequency	60 Hz	60 Hz
Phase	3	3
Max. load	90/50 amps	100/50 amps
Roaster & Cooler Dimensions		
Height	8'6"	9'3"
Width	6'	7'2"
Depth	13'6"	16'5"
Weight	8,500 lbs	12,000 lbs

ROASTER CONSISTS OF

- Chaff collecting cyclone
- Cooler fan
- Cooling tray
- Digital bean temperature indicator
- Manual control panel
- Water quench

OPTIONAL COMPONENTS

- Automatic control panel with recipe programming, water quench and automatic discharge into the cooler
- Basic thermal or catalytic oxidizer
- Destoner
- Pneumatic feeder

ABOUT PROBAT BURNS

Probat Burns provides a comprehensive range of equipment and support services for roasting and processing coffee in small and large batches. The Probat Group is dedicated to exceeding international industry standards of excellence. With more than 250 years of combined industry experience, the engineers and specialists at Probat Burns continue to develop their world-leading expertise in safe, environmentally friendly and consistent roasting technologies so that all our customers **roast assured**.
