

PROBATINO® TABLETOP ROASTER

CAPACITY: 8.8 LBS PER HOUR | SOLID DRUM ROASTER

The Probatino provides the same control and optimal blending capabilities of our specialty drum roasters, but is small enough to fit on a tabletop or in your café.

FEATURES & BENEFITS

- Ability to roast small custom batches of beans
- Solid roasting drum and special paddle mixer to ensure optimal blending and an excellent roast
- Flame adjustment dial for easy control of the roast
- Burner sight glass, bean sampler and digital thermometer for continuous monitoring
- Ergonomically positioned operator board for easy control adjustments
- Simultaneous roasting and cooling for reduced energy costs and cycle times
- Rapid cooling to retain the desired aroma and flavor of the beans
- Removable cooling sieve for quick cleaning
- Cooling tray with magnetic system for easy tipping and bean dumping
- Separate cyclone for effective chaff collection and exhaust venting
- Maintenance door for easy access to mechanics
