

PREMIER, TURN-KEY INSTALLATION SERVICES THAT DELIVER OPTIMAL PERFORMANCE.

Probat equipment delivers maximum performance when it's installed by the people who know it best—our team of premier installation experts. To ensure that it operates at the highest standards, we offer complete, turn-key plant installation services. We will come to your coffee facility and work side-by-side with you, during the installation of all mechanical and electrical systems. Once installation is complete, our professional startup and commissioning services will get you up and running quickly.

Probat is the world's most trusted name in comprehensive coffee roasting solutions. We deliver exceptional roasters, grinders, software, controls and more, that set the standard for quality, longevity and return on investment. With 150 years of experience in the art and science of roasting coffee, and unmatched resources in engineering, R&D, sales and service, Probat provides the most knowledgeable consultation, backed by premier installation services and remarkably responsive local support. Our commitment to excellence allows you to focus on the success of your business, for generations to come.

To maximize your Probat investment with our complete plant installation services, call **877.683.8113** or visit probatburns.com.

PROPER INSTALLATION IS CRITICAL TO RELIABLE PERFORMANCE

Hands-on Probat experts will visit your plant and ensure that your roaster installation, startup and controls programming progresses smoothly. In fact, we recommend that one of our technicians works with you on-site to supervise the mechanical and electrical installation of any roasters with a capacity of 220 lbs. or more per hour, starting with our P25/2 Roaster model.

MULTI-DISCIPLINARY EXPERTISE

No one knows industrial coffee equipment better than Probat. Our installation team includes highly experienced project managers, millwrights, welders, machinists, pipe fitters, CAD designers and engineers who have more experience installing complete coffee processing plants with Probat equipment than anyone else in North America.

COMPLETE PEACE OF MIND

Our experts will install Probat and other equipment, and assist you with other essential tasks. Ask us to:

- Perform initial roaster startup
- Assist with controls programming
- Conduct pre-dynamic and dynamic testing
- Provide staff training on recipe input and system operation
