

SOME SPECIALTY COFFEE SHOPS ASPIRE TO OWNING A PROBAT SMALL-BATCH ROASTER. OTHERS KNOW THERE IS SIMPLY NO ALTERNATIVE.

You've devoted your life to roasting great coffee. Probat shares your passion. Our small-batch solid drum roasters are designed for gentle roasting and complete control. Whether you seek an elegant tabletop roaster or a larger capacity machine, our engineers have considered every last detail to help you extract the ultimate flavor and aroma from every bean.

PROBATINO®

This easy-to-use tabletop coffee roaster is perfect for a coffee shop. It allows you to roast small, custom batches for individual customers or your own experimentation. The Probatino is ergonomic and easy to use.

- Special paddle mechanism for consistent blending and roasting
- Flame adjustment dial, sampler and digital thermometer for continuous monitoring and control
- Separate cyclone for effective chaff collection
- Simultaneous roasting and cooling for reduced energy costs and cycle times

P/2 SERIES

Available in three capacity options, the P/2 Series roasters deliver uniform roasts through gentle processing and efficient mixing. The modular design makes maintenance easy. Low-noise operation is ideal for in-store roasting.

- Classic design solid drum roaster, including cast iron from wall and discharge door for durability
- Responsive burner for precise roasting
- Efficient heating with ultra-low NOx burner for significantly reduced emissions
- Simultaneous roasting and cooling for reduced cycle times
- 7" touch-screen display and smartphone compatibility for monitoring your roasting curve in real time

G-SERIES

The G-Series offers all the advanced technologies of larger roasters within a compact design. Operational controls allow for maximum flexibility and efficiency.

- Solid roasting drum and special paddle mechanism to ensure optimal blending and an excellent roast
- User-friendly control panel for precise and consistent roasting
- Separate drives for fan, drum stirring mechanism and cooling to optimize the roasting process effectively
- Classic design and high-quality components for durability
